Municipal schools to be renovated soon

Classes in the SDMC schools would no longer be interrupted by the repair and maintenance works. The South Delhi Municipal Corporation will begin a massive renovation of its school buildings during this summer vacations, so that the classes run smoothly.

Earlier, the renovation works were carried out throughout the year that hampered the classes. But this time, the corporation has decided to complete all maintenance and repair work during the summer vacation itself. The summer vacation starts from May 10 and would continue till June 30.

“All kind of construction work related to maintenance of buildings, toilet blocks, other plumbing work and maintenance of fans and other electrical fittings will be completed before the schools reopen after the summer vacation. Tender for the work has already been done,” said a senior corporation official. The corporation will be spending **Rs 3.6** crore on the renovation work.

“All works including whitewash, maintenance of broken doors and windows, electrification, maintenance of fans, maintenance of water

supply network will be completed during the vacations,” said SDMC spokesperson Mukesh Yadav.

Apart from maintenance of the existing school infrastructure, the corporation is also constructing new classrooms and toilet blocks. The officials said while 422 classrooms have been constructed over the last one year, construction of 993 classrooms are in process. Similarly, the south civic body completed has completed construction of 97 new toilets, while work of 190 more toilets is on.
