List of illegal cell towers on BMC website

MUMBAI: After months of delay, the Brihanmumbai Municipal Corporation has uploaded a list of illegal mobile towers on its website, for the citizens to view.

The civic body has uploaded the list of the illegal towers along with their addresses.

The list put up by the BMC shows that there are a total 4,776 mobile towers in the city, of which 3,628 are illegal.

"The list has been uploaded so that citizens can check if the tower in their building is legal. If it is illegal, they can complain to the BMC which will take action," said a civic official. According to the list, areas in Borivili have the highest number of illegal towers. Of the 423 towers there, 342 are illegal.
