Special general body meeting of the Raichur City Municipal Council held on Tuesday

Work to be taken up under Chief Minister's Small and Medium Towns Development Programme

Suggestion made to improve the stretch between Station Circle and Gunj Circle

Raichur: The Raichur City Municipal Council, at a special general body meeting held here on Tuesday, decided to set aside Rs. 10 crore from the funds sanctioned under the Chief Minister's Small and Medium Towns Development Programme for widening and developing important roads in the city.

A. Mareppa, president of the City Municipal Council, presided over the meeting.

The issue of widening and improving of the roads in the city came up for discussion when Ramachandrappa, City Municipal Commissioner, told the meeting that the Government had recently sanctioned Rs. 30 crore under the Chief Minister's Small and Medium Towns Development Programme to take up road and drainage improvement, slum development and improvement of infrastructure in the city.

Mr. Ramachandrappa said that the fund sanctioned under the programme should be utilised within two years after its release mainly for the development of basic amenities like roads and drains. Fifty per cent of the total funds released should be reserved for widening and improvement of roads and drainages, 20 per cent for improvement of facilities in the slum localities and 30 per cent for improvement of basic facilities in the city.

The notified developmental works should be implemented immediately after the release of funds and should be completed within two years, he added.

Mr. Ramachandrappa informed the meeting that after getting approval from the council, an action plan would be prepared in accordance with the norms prescribed under the programme and will be submitted to the district administration for scrutiny.

Then, the Deputy Commissioner would forward it to the Government seeking its final approval.

The Opposition Congress member Jayanna suggested that the development work should be taken up on the stretch between Station Circle and Gunj Circle via Basaveshwara Circle. Approving the proposal moved by Mr. Jayanna, Mr. Mareppa said that he would ask the officials at the planning branch in the city municipality to prepare an action plan after inspecting the said stretch of the road. The finalised action plan would be submitted to the district administration for scrutiny and further approval from the Government.

The meeting also discussed the steps to be taken to create awareness among the public to prevent spread of A(H1N1) in the city. Mr. Jayanna raised the issue when he asked what measures the city municipality had initiated in containing the spread of A(H1N1).
