Corporation to grant new water connections

New water connections

The civic body may start giving new water connections in the next few days. The civic body had frozen new connections from December 2016 to January 2017 following a dip in water level in the Siruvani reservoir.

Sources said that following an increase in water level in the reservoir and comfortable water position, the Corporation had decided to grant new water connections. Currently, the civic body had 2,000 - 2,500 applications pending for new water connections.
